

SCALEARMOR®

HYDRA

self-cleaning filter

**PROTECT YOUR
SYSTEM FROM
SEDIMENT AND
LIMESCALE**

LONG-LASTING EFFECTIVENESS

HYDRA + SCALEARMOR®.

● Why choose ScaleArmor®.

- - A cleaner home with less effort.
- - Softer clothes, shiny dishes, glowing skin.
- - Pipes free from buildup.
- - Increased efficiency: systems and appliances work optimally.
- - Fewer failures and sudden breakdowns caused by limescale.
- - Less consumption.

● How ScaleArmor® works.

- *This special material in ScaleArmor® stops the growth of calcium and magnesium carbonate crystals, helping to keep pipes and surfaces cleaner and reducing corrosion.*
- *This material is so effective and long-lasting thanks to the special production process that makes it dissolve slowly, for a safe and constant effect over time: up to two years of anti-scale action.*

THE COMPLETE SOLUTION AGAINST SEDIMENTS AND LIMESCALE

Hydra Line

-  *The solution that protects your home and your business. Hydra is the range of self-cleaning filters ideal for removing sediments such as sand, rust and debris from domestic water before any treatment. The compact self-cleaning system with backwash reduces maintenance and ensures constant efficiency. Installed at the point of entry of your home, it protects your appliances and guarantees the maximum efficiency of your system.*
- 

ScaleArmor®

-  *The certified technology to fight limescale: ScaleArmor®.*
-  *ScaleArmor® prevents the formation of limescale, while protecting the pipes from build-up and corrosion.*
